How to Check for or Install Monserrat Font

On Windows

1. Press the **Windows key** on your keyboard, type "fonts" (without the quotes) and hit **Enter**
2. From the **Available fonts** search box, type "Montserrat" (without the quotes)
3. If no results show, you will need to perform the next following steps to install the font
4. From a browser, navigate to https://github.com/JulietaUla/Montserrat
5. Click on the green **Code or Download** button and select **Download ZIP** (let the file download to the default location). *If you are prompted with an option to Sign In or Sign Up, please disregard. You do not need to do either. The font is still downloading.*
6. Once the download completes, navigate to your **Downloads** directory
7. Right-click **Montserrat-master.zip** and select **Extract all…**
8. When prompted, click the **Extract** button
9. A new folder should appear named Montserrat-master
10. Navigate down to the Montserrat-master\fonts\otf directory
11. In the Search box at the top right of the window, type ".otf" (without the quotes) and hit **Enter**
12. Select all files by pressing **CTRL+A**
13. Bring up the Fonts windows side by side with the Montserrat-master\fonts\otf directory
14. In the OTF directory, click and drag all selected files into the **Drag and drop to install** box in the Fonts settings window
